Words of Wisdom

Education

Listen to these words from Oprah Winfrey:

I think education is power. I think that being able to communicate with people is power. One of my main goals is to encourage people to empower themselves.

To *empower* simply means *to give ability to*. So how do we empower ourselves? First, we educate ourselves. Education destroys ignorance and leads to a greater understanding of ourselves and the world around us. Second, we learn to communicate respectfully with others. We learn to work through or differences without hurtful words or harmful actions.

Today, and every day, learn well and notice how you communicate with others. Are you fair?
Understanding? Empower yourself and guess what? You're well on your way to becoming the best you
can be.
