### **TEACHERS**

Someone wise once said:

***Teachers are the true heroes of the world.***

The dictionary defines a hero as someone admired for his or strength and courage. The word *courage* comes from the Latin *cor*, which means "the heart". Teachers teach because they care...because they believe they can make a positive contribution to your life so that you can grow up and make a positive contribution to the world. Teachers teach because they want to make a difference in your life.

Today, acknowledge your teachers for caring enough to teach. Give them a hug or thank-you note or a few words of support.
