Monitor for symptoms <mark>and upgrade</mark> masks until Day

Quarantine Pathway For Exposed Children¹

Child has symptoms

Regardless of vaccination or booster status

Consult with medical provider for further evaluation

Follow exclusion guidance per DPH's Decision Pathways for Children with Symptoms (see page 3)

Child does not have symptoms

Not fully vaccinated*
OR fully vaccinated
and booster-eligible
but not yet boosted
*Includes persons
with prior SARS-CoV2 infection

Routine quarantine

Testing strongly recommended²
NOTE: persons previously infected with SARS-CoV-2
within the past 90 days should test with an Antigen test

If NO test, quarantine ends <u>after</u> Day 10

If negative test is collected on Day 5, then quarantine ends after Day 5

Modified quarantine option for TK-12 students³

Twice weekly testing is required²

(1st test immediately after

exposure, 2nd test on Day 5)

Student can attend school in-person but MUST otherwise quarantine at home. If negative test is collected on Day 5, then quarantine ends after Day 5

Boosted OR
Fully vaccinated but not yet booster-eligible

*For TK-12 students, testing on Day 5 is required (testing immediately after exposure is also recommended)²

¹Follows Los Angeles County Department of Public Health Home Quarantine Guidance. ²Testing: A COVID-19 diagnostic viral test, including a nucleic acid amplification test (NAAT, such as PCR) or an Antigen test for SARS-CoV-2, that is collected and performed in a healthcare setting or certified testing site, or an FDA-authorized Over-the-Counter test may be used. If the Over-the-Counter test used and is positive, the individual should be presumed to have COVID-19 and should follow Home Isolation Guidance. ³Modified quarantine applies only to TK-12 school students who had a school exposure. Criteria for modified quarantine can be found in the TK-12 Exposure Management Plan. ⁴There are some people who should not wear a mask, such as children younger than 24 months. Children ages 2 to 8 should wear a mask only when under adult supervision. See Who should not wear a mask and Special considerations for persons with communication difficulties or certain disabilities.

Monitor for symptoms and upgrade masks until Day 10³

Quarantine Pathway for Exposed Employees¹

Symptomatic

Regardless of vaccination or booster status

Consult with medical provider for further evaluation

Follow exclusion guidance per DPH's Decision Pathways for Staff with Symptoms (see page 7)

Asymptomatic

Not fully
vaccinated*
OR fully
vaccinated and
booster-eligible
but not yet
boosted
*Includes
persons with
prior SARS-CoV-2
infection

Testing strongly recommended²
NOTE: persons previously infected with SARS-CoV-2 within the past 90 days should test with an Antigen test

If NO test, quarantine ends <u>after</u> Day 10

If negative test is collected <u>on</u>
<u>Day 5</u>, then quarantine ends
<u>after</u> Day 5

Boosted OR
Fully vaccinated but
not yet boostereligible

*For TK-12 school employees, testing on Day 5 is required (testing immediately after exposure is also recommended)²

¹Follows Los Angeles County Department of Public Health <u>Home Quarantine Guidance</u> which allows employees to return to work as soon as they have cleared quarantine, which may before they meet <u>Cal/OSHA's criteria for return-to-work</u>. ²Testing: A COVID-19 diagnostic viral test, including a nucleic acid amplification test (NAAT, such as PCR) or an Antigen test for SARS-CoV-2, that is collected and performed in a healthcare setting or certified testing site, or an FDA-authorized Over-the-Counter test may be used. If the Over-the-Counter test used and is positive, the individual should be presumed to have COVID-19 and should follow <u>Home Isolation Guidance</u>. ³There are some people who should not wear a mask. See <u>Who should not wear a mask</u> and <u>Special considerations for persons with communication difficulties or certain disabilities</u>.
