

Hawk Talk – Wednesday, October 7, 2020

Hawks:

School calendar change - Last night, the School Board approved a new school district calendar that changes every Friday to a minimum day. This Friday, October 9th, is now a minimum day and it will be an even period day. Your classes this Friday only will be period 2, period 4, advisory, lunch, and period 8.

Hillview schedule change (this schedule change does not apply to yearlong distance learning students) - Beginning on Monday, October 12th, Hillview will be changing our school class schedule for the rest of this school year as follows:

Monday and Wednesday - Even period days (periods 2, 4, lunch, advisory, period 8)

Tuesday and Thursday - Odd period days (periods 1, 3, lunch, advisory, period 7)

Friday - All classes and a minimum day (periods 1, 2, 3, 4, advisory, lunch, periods 7 and 8)

Copies of the new schedules are posted on our website.

Students: Please remind your parents to go to their PowerSchool parent account and, if they have not yet done so, update all of their contact information.

Words of Wisdom

CONTAGIOUS HUMANITY

We all know that many diseases are contagious. That's why it's important not to expose ourselves to diseases such as drug and alcohol abuse, violence and crime. These can be contagious diseases that aren't easily treatable.

Dietrich Bonhoeffer, a Lutheran minister and anti-Nazi activist during World War II, was acknowledged for his "contagious *humanity*". He understood that Jews, Arabs, African-Americans, Hispanics, Asians, Native Americans, and Anglos are all part of the *whole* of humanity. His wisdom was contagious, and, as a result, he was a hero to many.

Contagious humanity...a great reminder that what's good and right in the world is also contagious.
