

Mr. Schlunegger 8th Grade Science Class Syllabus

Course description: STEMscopes™, created by Accelerate Learning Inc., is an award-winning, research-based national leader in PreK-12 STEM curriculum. Used by over 4.5M students across all 50 states and internationally, STEMscopes provides comprehensive digital resources, supplemental print materials, and hands-on exploration kits that drive engagement and academic growth.

Topics Covered:

Newton's Laws	Solar System	Fossil record
Kinetic Energy	Natural selection	Waves
Forces	Geologic history	Motion

Absent Work: Students have one week from the date of absence to make up any missing work. The grade will be entered as a zero until the work is made up.

Late Work: late work is accepted for ½ credit.

Assignments:

Classwork is due the following class period, unless stated otherwise

I suggest that the classwork is done the day I give it, so it is still fresh in your memory and you can get help the next day if you need it.

Students need to show their work on all assignments to receive full credit.

Grading: Grades are total points:	Test/Quiz	50%
	Work (classwork/Notebook)	40%
	Participation	10%

Grading: Grades are total points, which means that tests are worth 50% of the points and assignments/participation are worth 50%.
