Date of this revision: 10/24/17

The Single Plan for Student Achievement (SPSA) is a plan of actions to raise the academic performance of all students. California Education Code sections 41507, 41572, and 64001 and the federal Elementary and Secondary Education Act (ESEA) require each school to consolidate all school plans for programs funded through the ConApp and ESEA Program Improvement into the SPSA.

II. School Vision and Mission

Mission Statement

The mission of Hillview Middle School is to ensure that all students will be prepared to reach high levels of academic achievement as determined by district, state, and national standards. All students will have access to a college preparatory pathway and be encouraged to participate in school activities. Hillview Middle School will help students become educated, responsible citizens.

III. School Profile

Hillview Middle School is located in the southwest portion of the Antelope Valley in the community of Palmdale. Westside Union School District, covering approximately 360 square miles of high desert of California, is located in the southwest portion of the Antelope Valley in the community of Palmdale. Westside Union School District has an enrollment of approximately 9200 students from Kindergarten through 8th grade.

Hillview was built in 1993 and serves students from the surrounding communities of west Palmdale and west Lancaster. Hillview has approximately 920 6th, 7th, and 8th grade students. Students from four elementary schools feed into Hillview. In addition, Hillview currently has approximately 315 students in attendance on transfers from inside or outside of the District boundaries. The school buildings consist of one main building composed of 18 regular classrooms, two science labs, a library, a home economics room, an art room, a wood-shop room, a technology lab, a computer lab, and a cafeteria. There is also one meeting / conference room, a speech room, a counselor's office/room, ELL room, and the administrative offices. In addition, there are 16 relocatable classrooms (which includes two computer labs), a music/band room, and a gymnasium with boys' and girls' locker rooms and a dance room. The school includes grass and concrete play areas with equipment and a patio with picnic tables.

Sixth grade students who attend Hillview participate in the 6th grade Honors Academy. These students are selected from a lottery after meeting the requirements of a 3.0 GPA or higher in 4th and 5th grade. These students are exposed to a rigorous curriculum, STEM elective classes, and are eligible to participate in all middle school activities. Hillview also has a program to work with the district's middle school functional skills students. These special needs students are served in three different classrooms of about ten students each; however, many work with our elective and PE programs and interact with and work with our general education 6th, 7th, and 8th graders.

Hillview offers a strong core curriculum. Most curricular classes have numerous offerings including support classes and advanced classes. Our entire school is networked, and wired and wireless internet access is available across the campus. Classrooms have smartboards, language arts classrooms have sets of Chromebooks, and seven Chromebook carts are also available for teachers to check out. A high emphasis is placed on an education that provides for every student to become skilled in the use of technology, computers, and industrial technology. Students have the opportunity to participate in numerous elective classes including computers, design and modeling, band, art, industrial arts (wood shop), flight and space, Vex robotics (force and motion), AVID, Model UN, and home economics. Numerous clubs, academic teams, tutoring programs, and interscholastic sports provide opportunities for students to participate and interact with each other outside of the regular school day.

Hillview's diverse student population is served through funding with dollars from the state, LCFF (from a district level), money raised through ASB, and donations. Allocations provide funds for materials, equipment, and programs to meet the various needs of our students. Staff, teachers, and parents, in conjunction with the School Site Council, allocate funds based on student needs and the educational goals of the school.

IV. Comprehensive Needs Assessment Components

A. Data Analysis (See Appendix A)

ANALYSIS OF CURRENT EDUCATIONAL PRACTICE

The following statements characterize educational practice at this school:

1. Alignment of curriculum, instruction and materials to content and performance standards:

Math, language arts, reading, science, and history curriculum, instruction, and materials are directly aligned to district and state content and performance standards. Instruction is delivered based on the standards.

2. Availability of standards-based instructional materials appropriate to all student groups:

Instructional materials used in the classrooms in math, language arts, science, and social studies are standards-based and used by all student groupings. Lesson planning is based on the standards, which can be found either in the teacher's plan book, in the text, or posted in the classroom.

3. Alignment of staff development to standards, assessed student performance and professional needs:

Staff members have the opportunity to attend staff development to address the alignment of standards, assess student performance, and professional needs. New Teacher Induction provides support and instruction for beginning teachers. Support is also provided for interns and other new teachers who do not yet qualify to participate in New Teacher Induction. School site meeting time is used to analyze specific site and grade level issues. Training is offered to administrators and teachers to provide help in interpreting state testing, CELDT, and other assessment results and using those results to plan instruction.

4. Services provided by the regular program to enable underperforming students to meet standards:

The site offers many opportunities for the under performing students to meet the standards in the regular program. This includes instruction, which is driven by the standards in all classrooms. Teachers will identify under performing students in their classrooms. These students will be monitored closely. Under performing students will have the opportunity to attend before and/or after school tutoring. Some students are placed in support classes for extra assistance. These classes include: Math 8 Support, Math 7 Support, Language Arts 8 Support, Language Arts 7 Support, Study Skills and AVID. Intersession school is offered in March and June for students that failed to meet promotion requirements. Tutoring is available before school each day and after school twice a week. A computer "learning lab" is also open each day during lunch and is staffed by AVID tutors.

5. Services provided by categorical funds to enable under performing students to meet standards:

Services provided by categorical funding to enable under performing students to meet the standards include: use of data which drives the school's testing analysis for improvement; reading and math programs directed specifically towards under performing students; prep times and staff meetings enable teams of teachers to plan, conference, and consult with staff, students, parents, and administration. Illuminate is also used to monitor student progress on classroom assessments.

6. Use of state and local assessments to modify instruction and improve student achievement:

Assessment data is the driving force in generating instruction in all classrooms. All teachers are involved in looking at assessment data and developing an improvement plan. Expenditures are all related to improving student achievement based on findings in data. Teachers regularly examine student work and consult with their colleagues to ensure that students are mastering grade level standards.

7. Number and percentage of teachers in academic areas experiencing low student performance:

SBAC testing is reviewed annually and Hillview continues to meet or exceed state averages. Most areas on the recent "Dashboard" are in green; however, those student groups in yellow, orange, or red are monitored and programs are developed to work with those groups. The higher scores and such do not mean that each class may not have students struggling. An improvement plan is developed each year based on the previous year's data. Plans are being monitored during the year. Current state testing data is reviewed; however, since the test is new, growth data is limited. The data for the two years we have continues to be analyzed and growth in most areas has been achieved..

8. Family, school, district and community resources available to assist these students:

Low performing students are provided assistance in a variety of ways. Parent-teacher conferences and ELL parent conferences provide recommendations for parents to further their children's academic success and behavioral

concerns in the classroom. Homework/classwork may be modified to address students' needs. The school provides helpful information to parents in weekly phone dialers and items sent home with students. The student handbook and first day packet provide parents information on available programs for at risk students. Department and parent meetings are held regularly to discuss strategies to assist students. The district provides information at parent meetings, including the Superintendent's Advisory Committee, for parents to access help for their children in school. The School Site Council (SSC) at each site, composed of school and community members, distributes the school's resources based on the needs as outlined in the school plan. Principals are provided information in the form of sharing, flyers, and training at Principal's meetings and administrative sessions. W.A.V.E., Westside's educational foundation provides grant monies for school and teachers to supplement the programs provided at each school. Community organizations such as the Boy and Girl Scouts, Special Olympics, and sports groups provide outlets for students who may need the modeling provided by appropriate organizations in the community. Extracurricular clubs and athletics are available through the school site.

9. School, district and community barriers to improvements in student achievement:

Like all schools and districts, there are barriers to improvements in student achievement. Declining resources and increased class sizes continues to be a challenge. Categorical funds have been greatly reduced, along with support staff at the school site and within the district. Class sizes are at capacity and in some cases run overage. In our community, one of the challenges our schools face is the commuting time for many of our parents. Many of the parents commute long distances to jobs in the Los Angeles area. This means that they are gone for long periods of the day and have only a little time left over to participate in the education of their children and to volunteer in the schools. There is also a portion of our schools' population who face economic barriers. For some of the schools that have a rural population, there are some students who do not have the normal amenities such as running water and electricity. In the schools within the city limits, there are also those who face the typical issues surrounding dysfunctional families. This means that there are bigger concerns on their minds than the educational process. Also, this lends itself to a great deal of transience, which makes the educational process spotty at best.

10. Limitations of the current program to enable under performing students to meet standards:

The effectiveness of the current instructional program would be enhanced by:

On-going staff development in the areas of:

1. Knowledge of the state-adopted frameworks and content standards
2. Use of assessment data to guide and inform instruction
3. Differentiation of instruction particularly for ELL, special needs, Foster, Low Socio-economic, and at-risk students
4. Inclusion of special needs students into the general education environment
5. Boy's Town and development of appropriate discipline
6. Consistency with classroom grading and use of grades to evaluate student achievement.

Vertical articulation of curriculum from one grade level to the next

Well-developed parent education program that provides and familiarizes parents with the content standards, state testing programs, use of technology (especially things like our student data base, PowerSchool, and ways that they can support the instructional program.

Effective use of technology to support the instructional program and to facilitate the analysis of assessment data.

Increased time to provide remediation for these students identified to be at-risk.

B. Analysis of Current Instructional Program (See Appendix B)

V. Description of Barriers and Related School Goals

School Goals for Improving Student Achievement

Goal #1: Ensure all students are well-equipped with the cognitive, linguistic, interpersonal, and intrapersonal skills necessary to be successful in a global society.

Goal #2: Provide all students access to a high quality instructional program and the research-based supports necessary for them to engage fully and meaningfully with the program.

Goal #3: Develop and implement programs that support students' academic, behavioral, and social-emotional growth and

success.

Goal #4: This is our equity piece....

VI. Planned Improvements in Student Performance

The school site council has analyzed the academic performance of all student groups and has considered the effectiveness of key elements of the instructional program for students failing to meet academic growth targets and grade level expectations. As a result, it has adopted the following school goals, related actions, and expenditures to raise the academic performance of student groups not meeting state standards:

SCHOOL GOAL #1 (Based on conclusions from Analysis of Program Components and Student Data pages) GOAL # _1_ for Improving Student Achievement: Ensure all students are well-equipped with the cognitive, linguistic, interpersonal, and intrapersonal skills necessary to be successful in a global society.	
Student groups and grade levels to participate in this goal: All students, with a focus on low socio-economic students, foster, homeless, and ELL students.	What data did you use to develop this goal.? 16-17 State Testing Data, CELDT Scores, Classroom Grades / Report Cards, and Classroom Observations.
What were the findings from the analysis of this data? 7.69% of 6th grade, 46.14% of 7th grade, and 43.46% of 8th grade students didn't meet standards on the state test in ELA. 33.33% of 6th grade, 65.57% of 7th grade, and 58.13% of 8th grade students didn't meet standards on the state test in Math. 3.28% of our students are ELL, and 1% of our students are foster.	How will the school evaluate progress made toward achieving this goal? 3% of Hillview students at each performance level will move to a higher performance level in ELA and Math as measured by the state test.

VI Planned Improvements in Student Performance (continued)

SCHOOL GOAL #3 (Based on conclusions from Analysis of Program Components and Student Data pages) GOAL # 3 for Improving Student Achievement: Develop and implement programs that support students' academic, behavioral, and social-emotional growth and success.	
Student groups and grade levels to participate in this goal: All students, with a focus on low socio-economic students, foster, homeless, and ELL students.	What data did you use to develop this goal.? 16-17 State Testing Data, CELDT Scores, Classroom Grades / Report Cards, and Classroom Observation, Suspension/Expulsion Data, and Attendance Data.
What were the findings from the analysis of this data? 7.69% of 6th grade, 46.14% of 7th grade, and 43.46% of 8th grade students didn't meet standards on the state test in ELA. 33.33% of 6th grade, 65.57% of 7th grade, and 58.13% of 8th grade students didn't meet standards on the state test in Math. 3.28% of our students are ELL, and 1% of our students are foster. Suspension data is in the green; however, students with disabilities and African American students are in the yellow. Attendance rates were above 95%.	How will the school evaluate progress made toward achieving this goal? 3% of Hillview students at each performance level will move to a higher performance level in ELA and Math as measured by the state test. Suspension rates will move to green or blue in the 5x5 matrix (for all groups) and attendance rates will increase by 0.25%.

SCHOOL GOAL #3				
Actions to be Taken to Reach This Goal Consider all appropriate dimensions (e.g., Teaching and Learning, Staffing and Professional Development)	Start Date Completion Date	Proposed Expenditures	Estimated Cost	Funding Source
Improvement of instructional strategies and materials: 1) Classroom teachers will work to embed social interaction and group problem solving in to lessons.	2017-2018 Staff, Administration, Students	1) Trainer costs or NC	1) Varies	1) District Funded
Extended learning time: 1) Students will receive training about self-injurious behavior. 2) Students will have added opportunity to learn social emotional skills and working with others who don't look like them. a. All students and staff will receive training about bullying, conflict resolutions, classroom management, and working with different student needs (equity.) b. Additional training for staff and students to give extra help to students who miss school due to suspension or otherwise have excessive discipline referrals. 3) Students will receive training on general rules and school procedures 4. Work with programs like "The Great Kindness Challenge", "Red Ribbon Week", etc.	2017-2018 Staff, Administration, PTSA, Students	1) Staff costs 2) Presenter costs, Staff costs. 3) No cost 4) Supplies	1) Varies 2a) Varies 2b) \$6,000 3) No Cost 4) \$1000	1) District Funded 2a) District Funded 2b) Title I 3) No Cost 4) PTSA, ASB, District Funded
Increased educational opportunity: 1) Students given the opportunity to participate in things like Yearbook, computers, project lead the way, honors programs, 6th grade honors academy, field trips, and WAVE sponsored events. 2) Recognize student accomplishments and achievement by classroom, team, and school incentives. 3) Students will have an opportunity to work with and talk with a school counselor 4) Students will receive information about rules, procedures, methods to talk with admin/counselor (get help), and general discipline.	2017-2018 Staff, Administration, Students	1) Purchase supplies/equipment 2) No anticipated costs 3) Staff costs 4) NA	1) Varies 2) NC 3) Varies 4) No Cost	1) District Funded 2) NA 3) District Funded 4) NA

VI Planned Improvements in Student Performance (continued)

SCHOOL GOAL #4 (Based on conclusions from Analysis of Program Components and Student Data pages) Create a school wide climate that supports systematic equity and rigorous student achievement for every child, while providing supports that will allow all students to perform at their peak	
Student groups and grade levels to participate in this goal: All students with a particular focus on our special needs students and African American students.	What data did you use to develop this goal? A review surveys, state test scores, and of comparative data on suspensions, attendance, and academic scores dis-aggregating by student groups.
What were the findings from the analysis of this data? 3.28% of our students are ELL, and 1% of our students are foster. Suspension data is in the green; however, students with disabilities and African American students are in the yellow. Attendance rates were above 95%.	How will the school evaluate progress made toward achieving this goal? Enhancing communication with our stakeholder groups. Developing methods to receive feedback about our programs. On-going staff development on equity and culture. Suspension rates will move to green or blue in the 5x5 matrix (for all groups) and attendance rates will increase by 0.25%.

SCHOOL GOAL #4				
Actions to be Taken to Reach This Goal Consider all appropriate dimensions (e.g., Teaching and Learning, Staffing and Professional Development)	Start Date Completion Date	Proposed Expenditures	Estimated Cost	Funding Source
Assessing Cultural Knowledge 1. Create structures that provide ongoing opportunities to learn about cultural groups. 2. We need to provide additional data, and time to analyze data about climate, discipline, etc. 3. Increase teacher / parent communication to help understanding of cultures.	2017-2020	Provide opportunities for parents to be involved at the site and give input. PTSA, ELAC, Site Council. Staff training on equity and cultural perspectives. Parent nights (AVID, training, general school information, etc.)	Unknown / TBD	Title I, URGF, District Funded
Valuing the Diversity 1. Work to frame concerns in a more positive manner. 2. Have "personal" conversations with parents about cultural identity. 3. Work to give more positive feedback to struggling students.	2017-2020	Parent engagement Student / Staff relationship building	NC	N/A
Managing the Dynamics of Difference 1. Consider multiple methods when dealing with student discipline, not just "one size fits all." 2. Continue to look at things from various perspectives. 3. Increase dialogue with staff and parents about multiple methods for conflict resolution, etc.	2017-2020	Continue with Boys Town training and feedback. Look at alternatives for equity training at the site level.	Unknown / TBD	Title I, URGF, District Funded

SCHOOL GOAL #4				
Actions to be Taken to Reach This Goal Consider all appropriate dimensions (e.g., Teaching and Learning, Staffing and Professional Development)	Start Date Completion Date	Proposed Expenditures	Estimated Cost	Funding Source
Adapting to Diversity 1. Engage stakeholder groups effectively to gather additional input. 2. Develop methods for greater student feedback that can be used in a useful manner. 3. Understand and communicate our current state of school environment better.	2017-2020	Develop surveys. Meeting with student groups. Continue use of school webpage and phone dialer system. Survey parents on chosen methods of communication. Break down specific reports, data, etc. in parent and kid friendly language.	Unknown / TBD	Title I, URGF, District Funded
Institutionalize Cultural Knowledge 1. Allow additional opportunities for stakeholder groups to participate in discussions on things that affect the school (discipline, various requirements, etc.) 2. Work with front line staff (office staff, playground aides, etc.) on ways to increase customer service. 3. Develop systems for formal feedback and implement procedures as to how that feedback will be used.	2017-2020	Discuss methods to gather feedback from students, parents, and community members. Develop surveys / data collection tools.	NC	N/A

Appendix B - Analysis of Current Instructional Program

This section lists statements about the instructional program adapted from NCLB, Title I, Part A and the related California Essential Program Components (EPC). To analyze these statements, the school site council will need information from a variety of sources (e.g., Survey Results, Library Plan, Master Plan, SARC).

Discussion of each of these statements should result in succinct and focused findings based on verifiable facts. Avoid vague or general descriptions. Each successive school plan should examine the status of these findings and note progress made. Special consideration was given to any practices, policies, or procedures found to be noncompliant through ongoing monitoring of categorical programs.

Standards, Assessment, and Accountability

1. Use of state and local assessments to modify instruction and improve student achievement (NCLB)
2. Use of data to monitor student progress on curriculum-embedded assessments and modify instruction (EPC)

Staffing and Professional Development

3. Status of meeting requirements for highly qualified staff (NCLB)
4. Principals' Assembly Bill (AB) 75 training on State Board of Education (SBE) adopted instructional materials (EPC)
5. Sufficiency of credentialed teachers and teacher professional development (e.g., access to AB 466 training on SBE-adopted instructional materials) (EPC)
6. Alignment of staff development to content standards, assessed student performance, and professional needs (NCLB)
7. Ongoing instructional assistance and support for teachers (e.g., use of content experts and instructional coaches) (EPC)
8. Teacher collaboration by grade level (EPC)

Teaching and Learning

9. Alignment of curriculum, instruction, and materials to content and performance standards (NCLB)

10. Adherence to recommended instructional minutes for reading/language arts and mathematics (EPC)
11. Lesson pacing schedule (EPC)
12. Availability of standards-based instructional materials appropriate to all student groups (NCLB)
13. Use of SBE-adopted and standards-aligned instructional materials, including intervention materials (EPC)

Opportunity and Equal Educational Access

14. Services provided by the regular program that enable underperforming students to meet standards (NCLB)
15. Research-based educational practices to raise student achievement at this school (NCLB)
16. Opportunities for increased learning time (Title I SWP and PI requirement)
17. Transition from preschool to kindergarten (Title I SWP)

Involvement

18. Resources available from family, school, district, and community to assist under-achieving students (NCLB)
19. Strategies to increase parental involvement (Title I SWP)
20. Involvement of parents, community representatives, classroom teachers, and other school personnel in the planning, implementation, and evaluation of consolidated application programs (5 CCR 3932)

Funding

21. Services provided by categorical funds that enable underperforming students to meet standards (NCLB)

22. Fiscal support (EPC)

Appendix C - Programs Included in this Plan

Check the box for each state and federal categorical program in which the school participates and, if applicable, enter amounts allocated. (The plan must describe the activities to be conducted at the school for each of the state and federal categorical program in which the school participates. If the school receives funding, then the plan must include the proposed expenditures.)

Appendix F - Hillview Middle School's Parent Involvement Policy

The staff of this school recognizes that parents/guardians are their children's first and most influential teachers and that continued parental involvement in the education of children contributes greatly to student achievement and a positive school environment.

In order to engage parents/guardians positively in their children's education, the principal or designee shall:

1. Ensure that teachers provide frequent reports to parents/guardians on their children's progress and hold parent-teacher conferences at least once per year with parents/guardians of students.
2. Provide opportunities for parents/guardians to observe classroom activities and to volunteer in their child's classroom.
3. Provide information about parent involvement opportunities through school, and/or class newsletters, the district's web site, phone message and other written or electronic communications.
4. Develop mechanisms to encourage parent/guardian input on school issues and programs.
5. To the extent practicable, provide full opportunities for the participation of parents/guardians with limited English proficiency, parents/guardians with disabilities, and parents/guardians of migrant children, including providing information and school reports required under 20 USC 6311(h) in a format and language such parents/guardians can understand.
6. Encourage greater parent/guardian participation by offering a flexible number of meetings and adjusting meeting schedules when practicable to accommodate parent/guardian needs.
7. Build the capacity of the school and parents/guardians for strong parent involvement by:
 - assisting parents/guardians in understanding such topics as the state's academic content standards and academic achievement standards, state and local academic assessments, the requirements of Title I, and how to monitor a child's progress and work with educators to improve the achievement of their children
 - providing materials and training to help parents/guardians work with their children to improve their children's achievement, such as literacy training and using technology, as appropriate, to foster parent involvement
 - educating teachers, student services personnel, principals, and other staff, with the assistance of parents/guardians, in the value and utility of parent/guardian contributions and in how to reach out to, communicate with, and work with parents/guardians as equal partners, implement and coordinate parent/guardian programs, and build ties between parents/guardians and the schools
 - informing parents/guardians and parent organizations of the existence and purpose of parent information and resource centers in the state that provide training, information, and support to parents/guardians of participating students
8. Engage parents/guardians positively in their children's education by helping them develop skills to use at home that support their children's academic efforts at school and their children's development as responsible members of society (Education Code 11502, 11504) through such activities as:
 - providing parents/guardians with information regarding ways to create an effective study environment at home and to encourage good study habits
 - encouraging parents/guardians to monitor their children's school attendance, homework completion, and television viewing
 - build consistent and effective communication between the home and school so that parents/guardians may know when and how to assist their children in support of classroom learning activities (Education Code 11502, 11504)
9. Jointly develop with the parents/guardians of a school-parent compact that outlines how parents/guardians, the entire school staff, and students will share responsibility for improved student academic achievement and the means by which the school and parents/guardians will build a partnership to help students achieve state standards.
10. This compact shall address:

- The school's responsibility to provide high-quality curriculum and instruction in a supportive and effective learning environment that enables participating students to achieve the state's student academic achievement standards
- Ways in which parents/guardians will be responsible for supporting their children's learning, such as monitoring attendance, homework completion, and television viewing; volunteering in the classroom; and participating, as appropriate, in decisions related to their children's education and the positive use of extracurricular time

11. The importance of communication between teachers and parents/guardians on an ongoing basis through, at a minimum:

- Parent-teacher conferences in elementary schools, at least annually, during which the compact shall be discussed as it relates to the student's achievement
- Frequent reports to parents/guardians on their children's progress
- Reasonable access to staff, opportunities to volunteer and participate in their child's classroom, and observation of classroom activities

12. Convene an annual meeting, at a convenient time, to which all parents/guardians of participating students shall be invited and encouraged to attend, in order to inform parents/guardians of their school's participation in Title I and to explain Title I requirements and the right of parents/guardians to be involved

13. Involve parents/guardians in an organized, ongoing, and timely way in the planning; review; and improvement of school programs, including Title I programs; including the planning, review, and improvement of the school's parent involvement policy and the joint development of the school's Single Plan for Student Achievement

14. If the school's Single Plan for Student Achievement is not satisfactory to the parents/guardians of participating students, submit any parent/guardian comments when the school makes the plan available to the district

15. The principal or designee, jointly with parents/guardians shall annually review and update the school's parent involvement policy to meet the changing needs of parents/guardians and the school. (20 USC 6318)

Appendix G - Home/School Compact

We, the Hillview community, believe that each of us has an important role to play in our student's school success. Therefore, we agree to carry out the following responsibilities to the best of our ability:

Student Pledge:

I will:

- Come to school each day prepared to do my best and be ready to learn.
- Participate in class activities.
- Take responsibility for completing and returning my class work and homework.
- Review with your parent and discuss the binder reminder including school rules, discipline, responsibilities, and student expectations.
- Respect the school, staff, students and families.

Parents Pledge:

We will:

- Make sure that our child attends school regularly: is on time, and is prepared to learn.
- Know what is expected of our child and what she/he is learning in school.
- Monitor our child's progress and communicate regularly with our child's teacher, checking PowerSchool regularly.
- Encourage, assist and/or read with our child nightly.
- Attend Back-to-School night, parent-teacher conferences and other school events.
- Review with your child and discuss the binder reminder including school rules, discipline, responsibilities, and student expectations.

Staff Pledge:

We will:

- Provide meaningful learning activities that address challenging standards for all students.
- Communicate regularly with you about your child's progress and ways that you can provide assistance.
- Participate in meaningful staff development in effective teaching strategies, addressing the needs of a diverse student body, and working effectively with all members of our learning community.

Principal Pledge:

I will:

- Ensure that meaningful learning experiences that address challenging standards are provided for all students.
- Encourage and facilitate open communication between school and home.
- Provide opportunities and programs and how they can assist at home.
- Allocate adequate resources to ensure that high standards can be met by all children.

Appendix H - School Site Council Membership (Hillview Middle School)

Education Code Section 64001 requires that the SPSA be reviewed and updated at least annually, including proposed expenditures of funds allocated to the through the Consolidated Application, by the school site council. The current make-up of the council is as follows (43):

Name of Members	Principal	Classroom Teacher	Other School Staff	Parent or Community Member	Secondary Students
Rodney Lots / Jennifer Slater-Sanchez	X				
Louis Denning		X			
Tina Faulk		X			
Laura Johnson		X			
Antonio Gonzalez		X			
Danita Lewis			X		
James Rock				X	
Stacie Smith				X	
Sandrine Dupanloup Hebbman				X	
Colin Culver					X
Grace Faulk					X
Francesca Ryu					X
Numbers of members of each category	1	4	1	3	3

(43) At elementary schools, the school site council must be constituted to ensure parity between (a) the principal, classroom teachers, and other school personnel, and (b) parents of students attending the school or other community members. Classroom teachers must comprise a majority of persons represented under section (a). At secondary schools there must be, in addition, equal numbers of parents or other community members selected by parents, and students. Members must be selected by their peer group.

Appendix I: Single Plan for Student Achievement Annual Evaluation

Pursuant to California Education Code Section 64001(g), the School Site Council (SSC) must evaluate at least annually the effectiveness of planned activities. In the cycle of continuous improvement of student performance, evaluation of the results of goals will provide data to inform and guide subsequent plans.

Annual evaluation by the SSC and local educational agency (LEA) is a critical part of the continuous cycle of improvement for a school. Furthermore, it is an integral component of the Compensatory Education (CE) Federal Program Monitoring (FPM) review process for Single Plan for Student Achievements (SPSAs). During an FPM review, the SSC and LEA must be able to provide evidence of the evaluation process to determine if the needs of students are being met by the strategies described in the SPSA.

The SPSA annual evaluation may be a summary description of the school's progress toward implementation of the strategies and actions in the SPSA. The report may also include a data analysis of the school's progress towards its student achievement goals based on local, state, or national assessment data.

During the evaluation process, it is important for the SSC and LEA to exercise caution about jumping to conclusions about the effectiveness or non-effectiveness of specific activities and programs without examining the underlying causes. The SSC and LEA should consider all relevant factors when evaluating the plan, such as the degree of implementation, student enrollment changes, and health and safety issues.

Plan Priorities

Identify the top priorities of the most recent board approved SPSA. (No more than 2–3.)

Identify the major expenditures supporting these priorities.

Plan Implementation

Identify strategies in the most recent board approved SPSA that were fully implemented as described in the plan.

Identify strategies in the most recent board approved SPSA that were not fully implemented as described in the plan or were not implemented within the specified timelines.

What specific actions related to those strategies were eliminated or modified during the year?

Identify barriers to full or timely implementation of the strategies identified above.

What actions were undertaken to mitigate those barriers or adjust the plan to overcome them?

What impact did the lack of full or timely implementation of these strategies have on student outcomes? What data did you use to come to this conclusion?

Strategies and Activities

Identify those strategies or activities that were particularly effective in improving student achievement. What evidence do you have of the direct or indirect impact of the strategies or activities on student achievement?

Identify those strategies or activities that were ineffective or minimally effective in improving student achievement.

Based on an analysis of the impact of the strategies/activities, what appears to be the reason they were ineffective in improving student achievement?

Lack of timely implementation

Limited or ineffective professional development to support implementation

Lack of effective follow-up or coaching to support implementation

Not implemented with fidelity

Not appropriately matched to student needs/student population

Other:

Based on the analysis of this practice, would you recommend:

Eliminating it from next year's plan

Continuing it with the following modifications:

Involvement/Governance

How was the SSC involved in development of the plan?

How were advisory committees involved in providing advice to the SSC?

How was the plan monitored during the school year?

What changes are needed to ensure involvement of all stakeholders and adequate monitoring of planned activities and outcomes?

Outcomes

Identify any goals in the most recent board approved SPSA that were met.

Identify any goals in the most recent board approved SPSA that were not met, or were only partially met.

List any strategies related to this goal that were identified above as "not fully implemented" or "ineffective" or "minimally" effective.

Based on this information, what might be some recommendations for future steps to meet this goal?
