Core Beliefs and Board Goals 2016-2017

The District uses data to create a learning-oriented culture for both staff and students which defines success in terms of improvement and progress.

1. WE BELIEVE THAT OUR TEACHERS AND STAFF ARE OUR MOST VALUABLE ASSETS AND RESOURCES

☞ A. Revenues will be placed in a separate account to pay for long term post-employment benefits

❖ Annual Report by Business Services

2. WE OPERATE WITH TRANSPARENCY, TRUST AND INTEGRITY, GOVERNING IN A DIGNIFIED, PROFESSIONAL MANNER, TREATING EVERYONE WITH CIVILITY AND RESPECT

3. WE ARE ABSOLUTELY COMMITTED TO PROVIDING A SAFE, DISTINGUISHED AND ENGAGING LEARNING ENVIRONMENT THAT ENSURES ALL STUDENTS LEARN TO THEIR HIGHEST POTENTIAL

☞ A. Build a capacity of board and district staff in developing and monitoring data related to goals and priorities

☞ B. A key concern and priority for this governing board is improving the accuracy and consistency of grading which should measure what students know, as they play a crucial role in every aspect of student's academic lives and future lives as global citizens. Areas of concern are: 1) Grades reflect progressive and mastery of content. 2) They are predictable and understood by parents and third parties. 3) That non-academic factors are graded separately. 4) The system adopted is not overwhelming for teachers.

❖ Annual Report by Educational Services

4. WE ARE ABSOLUTELY COMMITTED TO PROVIDING THE NECESSARY FACILITIES TO MEET THE HOUSING AND EDUCATION NEEDS OF OUR CHANGING STUDENT POPULATION AND A VISION THAT PROMOTES AND SUPPORTS THEIR FUTURE

☞ A. Modernize Cottonwood Elementary School and receive an annual update to the District's Master Facilities Plan while exploring and securing options to finance the plan.

FINANCIAL ACCOUNTABILITY**
6. **WE BELIEVE IN AND PROMOTE PARENT AND COMMUNITY

Board Bylaw

Code Of Ethics

Board Bylaws

BB 9271(a)

This code of ethics expresses the personal ideals which the Board of Trustees believes should guide each school Board member's activities.

In all actions as a school Board member, the member's first commitment is to the well-being of our youth. His/her primary responsibility is to every student in the district.

Board members also have other major commitments to:

- The Community. Each Board member is responsible to all residents of the district and not solely to those who elected him/her; nor solely to any organization to which he/she may belong, or which may have supported his/her election.
- Individuals. Each Board member has a direct concern for every individual in the community. As an integral part of his/her duties, he/she represents the authority and responsibility of government. This authority must be exercised with as much care and concern for the least influential as for the most influential member of the community.
- Employees. The Board member's actions may affect the capability of district employees to practice their trade or profession and should encourage their increasing competence and professional growth.
- Laws, Policies. Each Board member must be aware of, and comply with, the constitutions of State and Nation, the Education Code of the State of California, other laws pertaining to public education, and the established policies of the district.
- Decision Making. Each Board member is obliged by law to participate in decisions pertaining to education in the district. As an elected representative of the people, the Board member can neither relinquish nor delegate this responsibility to any other individual or group.
- Individual Feelings and Philosophy. Every individual Board member has something to contribute to society.

Understanding and acting upon the foregoing premises, each Board member shall:

- Consider his/her position on the Board as a public trust and not use it for private advantage or personal gain.
- Be constantly aware that he/she has no legal authority except when acting as a member of the Board. Board members shall present their concerns and concepts through the process of Board debate. If in the minority of any decision, they shall abide by and support the majority

decision. When in the majority, they shall respect divergent opinions.

- Encourage ideas and opinions from the residents of the district and endeavor to incorporate community views into the deliberations and decisions of the Board.
- Devote sufficient time, thought, and study to proposed actions so as to be able to base decisions upon all available facts and vote in accordance with honest convictions, unswayed by partisan bias of any kind.
- Remember that the basic functions of the Board are to establish the policies by which district schools are administered and to select the Superintendent or designee and staff who will implement those policies.
- Promote and participate actively in a concerted program of timely exchange of information with all district residents, parents/ guardians, employees and students.
- Recognize that the deliberations of the Board in closed session may be released or discussed in public only with Board approval.
- Make use of opportunities to enlarge his/her potential as a Board member through participation in educational conferences, workshops and training sessions made available by local, state and national agencies.

Monitoring Results by Program

Compensatory Education

1. CE 08: SSC Approves SPSA

The SSC must annually develop, review, update, and approve the Single Plan for Student Achievement (SPSA), including proposed expenditures and the SPSA must contain (a) an analysis of academic performance data to determine students' needs; (b) school goals to meet the identified academic needs of students; (c) expenditures of funds allocated to the school through the CARS; and (d) the means of annually evaluating the progress of programs toward accomplishing the goals, including determining whether the needs of all children have been met by the strategies used, particularly the needs of low achieving students and those at risk of not meeting state academic content standards. In addition, the local governing board must review and approve the SPSA annually and whenever there are material changes to the plan and all elements CE-8.2 to CE-8.15 must be included as applicable.

A review of the 2015-16 SPSAs, and budget documents for Quartz Hill and Valley View Elementary revealed that the total amount of Title I, Part A funds allocated to the site through the 2015-16 CARS did not match budget, and categorical school allocation pages on the SPSAs. In addition, there are three funding sources listed with missing dollar amount that denotes as follows: N/A, Varies, and TBD. All proposed expenditures/estimated cost pages on the SPSAs pages reflect the budgeted amount.

The LEA must upload into CMT documentation to show the SSC at Quartz Hill and Valley View Elementary has reviewed, updated, and approved the 2016-17 SPSAs that includes the estimated cost, upload the 2016-17 CARS draft spreadsheet showing the school allocation for 2015-16, and the school's 2016-17 budget report showing that all these documents match. In addition, upload evidence to show the local governing board has approved the 2016-17 revised SPSAs.

2. CE 12: LEA Disburses Funds Consistent with CARS

The LEA must disburse Title I, Part A funds in accordance with the approved CARS.

During a review of the 2015-16 budget reports, the 2015-16 SPSAs for Quartz Hill and Valley View Elementary, and SSC minutes, the SPSAs for the schools did not contain the entire 2015-16 school site allocation in accordance with the approved CARS submitted to CDE.

The LEA must upload documentation into CMT to show that Quartz Hill and Valley View Elementary 2016-17 SPSAs contains all funds disbursed to the schools through CARS.

The means by which a finding is resolved is the responsibility of the LEA unless specified in law. Authorized LEA staff may request suggestions from CDE staff on the resolution of findings.

3. CE 18: LEA Evaluates Effectiveness of Programs

Federal law requires that the LEA annually evaluate the effectiveness of the activities funded by Title I in the LEA Plan and the SPSA of its Title I schools; use the evaluation to improve educational programs; and publicize and disseminate the results of the evaluation to parents, teachers, principals, schools, and the community so that these stakeholders can continually refine the program of instruction to help all children served to meet the challenging state academic standards.

The LEA has not provided documentation for the annual Title I program evaluation and related evidence requests for this item that address the above requirements.

The LEA must conduct a Title I Program Evaluation that assesses the impact on student performance, especially for students not meeting or at risk of not meeting state standards, of those actions and strategies supported both with Title I, Part A funds reserved by the district as well as those allocated to its Title I schools and included in the SPSAs. When this evaluation has been conducted and documented, it must be uploaded to CMT along with evidence that it has been disseminated to stakeholder groups as defined above.

4. CE 19: SSC Annually Evaluates SPSA Services

The SSC must annually evaluate the activities described in the SPSA and funded by Title I, Part A to determine if the needs of all children have been met and are helping low-achieving students meet state academic content standards.

After a review of documentation such as the LEA Plan, 2015-16 SPSAs, and SSC minutes from Quartz Hill and Valley View Elementary, it was determined that the reviewed schools and the SSC members have not completed the required evaluation of activities funded by Title I, Part A funds to determine the effectiveness of programs specified in the SPSAs.

The LEA must upload evaluation documents including SSC meeting minutes, agendas, and sign-in sheets from Quartz Hill and Valley View Elementary to determine if the activities funded by Title I, Part A funds are helping low achieving students meet state academic content standards. The evaluation must describe what is working, what is not working and include, as appropriate, specific program modifications for each activity to address the academic needs of low achieving students and those at risk of not meeting state academic content standards based on evaluation results.

of English language acquisition in order to develop proficiency in English as rapidly and effectively as possible, consistent with state priorities.

A review of master schedules, course descriptions, curriculum, instructional materials, and sample lesson plans, LEA criteria for ELD course placement, and EL enrollment data that included time in program, most recent CELDT results, academic assessment results, and course grades did not reveal ELD as protected language acquisition time to help ELs reach proficiency as rapidly and effectively as possible.

The LEA must submit evidence that all ELs are appropriately enrolled in a program of English language acquisition in order to develop proficiency in English as rapidly and effectively as possible, consistent with state priorities.

2. EL 20: Access to the Core Subject Matter

The LEA shall continue to monitor student academic progress and provide additional and appropriate educational services to English learners in kindergarten through grade 12 for the purposes of overcoming language barriers. Actions to overcome academic barriers must be taken before the deficits become irreparable.

A review of current EL enrollment and LTEL data, descriptions of grade level and EL pedagogical methods, materials, as well as interventions and support in core content areas reveal that ELs do not meet the same challenging state content standards and achievement goals all children are expected to meet, and there is no evidence of systems to monitor student academic progress and provide additional and appropriate educational services to English learners for the purposes of overcoming language barriers.

The LEA must submit evidence that ELs have access to core content aligned to the rigors of grade-level standards to meet the same academic achievement expectations of all students. In addition, the LEA must submit evidence of systems to monitor student academic progress and provide additional and appropriate educational services to English learners for the purposes of overcoming language barriers in all core content areas.

Fiscal Monitoring

1. FM 05: Funding

The LEA is required to allocate Title I, Part A funds to the school sites in accordance with the approved allocation formulas contained in the Consolidated Application (con app) submitted to CDE. In addition, LEAs must ensure that school sites that operate categorical programs must develop a single plan for student achievement (SPSA) that includes the proposed expenditure of funds allocated to the school site through the con app. The SPSA must be reviewed annually, updated, and approved by the school site council and the LEA's governing board.

The LEA failed to provide CDE documentation to substantiate that each of the school sites operating categorical programs developed a 2015-16 SPSA that includes the total amount of Title I, Part A funds allocated to the school site through the con app and the proposed expenditure of Title I, Part A funds. In addition, the 2015-16 SPSA was not updated and

approved by the school site council and the LEA's governing board.

The LEA must develop and implement policies and procedures to ensure that the LEA allocates Title I, Part A funds to school sites in accordance with the approved allocation formulas contained in the con app, develops a SPSA that includes the proposed expenditure of funds and total amount of Title I, Part A funds allocated to the school site through the con app, and the SPSA is reviewed annually, updated, and approved by the school site council and the LEA's governing board. The LEA must upload the 2016-17 SPSAs for the reviewed school sites and provide documentation to support that the LEA's school site council approved the SPSA. In addition, the LEA must provide training to staff to ensure that the SPSA includes the total amount of Title I, Part A funds allocated to the school site through the con app and the proposed expenditure of Title I, Part A funds.

Uniform Complaint Procedures

1. UCP 01: Policies and Procedures

The LEA adopts Board Policies and Procedures regarding UCP with all language and components of required elements for applicable state and federal laws and regulations.

The documents, "BP1312.3 Uniform Complain...ures WUSD rev 010917.pdf" uploaded on 1/9/17, and "AR1312.3 Uniform Complaint Procedures WUSD 0117.pdf," uploaded on 1/7/17, contain all required language and components of required elements.

The LEA must upload on CMT evidence that the revised UCP 1 Policies and Procedures were presented to and approved by the local governing board.

The means by which a finding is resolved is the responsibility of the LEA unless specified in law. Authorized LEA staff may request suggestions from CDE staff on the resolution of findings.

BOARD AGENDA

January 17, 2017

TO: BOARD OF TRUSTEES

PREPARED BY: Shawn Cabey, Assistant Superintendent Administrative Services

SUBJECT: Adoption of Resolution 17-14, Public Agencies Post-Employment Benefits Trust

BACKGROUND:

Funding and accounting for “Other Post-Employment Benefits” (OPEB) is a significant challenge facing many state and local governments. Historically public agencies have reported the cost of retiree healthcare and other non-pension benefits on a “pay-as-you-go” basis. However Governmental Accounting Standards Board Statement Number 45 (GASB 45) now requires agencies to actuarially assess the full future costs of their OPEB benefits and record them as liabilities in current financial accounting statements.

Currently the District Trustees have been allocating monies to meet these long-term OPEB obligations by reserving funds in the General Fund ending balance. However, legally these funds are not restricted and so could be used by the District in the future for any purpose and so therefore cannot be considered as a secured source of funding for OPEB and other pension obligations.

Establishing an irrevocable trust will sequester any monies placed in the trust and enable the District to fund, from a legal and accounting perspective, it's post-employment and pension obligations.

PARS (Public Agency Retirement Services) is the California School Boards Association endorsed provider of OPEB trust administration services. They currently provide OPEB and pension administration services for over 200 clients including dozens of school districts throughout California.

BOARD AGENDA

January 17, 2017

TO: BOARD OF TRUSTEES
PREPARED BY: Jeri Holmes, Purchasing
SUBJECT: Contractor Pre-Qualifications

BACKGROUND:

Assembly Bill 1565 which took effect January 1, 2014 requires school districts with over 2,500 students to pre-qualify bidders (General, Mechanical, Electrical and Plumbing (MEP) subcontractors) for construction contracts if the total project value is \$1,000,000 or more and if the project is funded, in whole or in part, with State bond funds. Additionally, in 2014 the District elected to participate in the California Uniform Public Construction Cost Accounting (CUPCAA) program, which enables districts that adopt the CUPCCA procedures and conform to the CUPCCA guidelines to perform public project work up to \$45,000 with their in-house work force, and informally bid construction projects valued at up to \$175,000.

These State regulations require that the District maintain lists of all contractors eligible to perform work, and in order to fully and jointly satisfy the requirements of these programs Administrative Services is recommending that the District on a regular and routine basis as applications are received.

PROGRAM/EDUCATIONAL IMPLICATION:

On-going review of applications meets State requirements for pre-qualification of bidders.

COST ANALYSIS/FUNDING SOURCE:
